

COACHING AND MENTORING MASTERCLASS 2022

PROGRAM OVERVIEW

Coaching and Mentoring are a one-to-one or perhaps group service designed to bring about more effective, healthier organisations. As people responsive to coaching apply their new found skills and techniques to other people in the organisation, improved interaction cascades down the organisation. In schools a variety of coaching models (affiliative, instructional and didactic) along with constructive mentoring enable leaders to offer support based on contextual needs.

The 'Coaching & Mentoring' masterclass is an engaging one-day face-to-face workshop that will build your skills to inspire others to strengthen their capabilities and competencies.
